Story

Storytelling Traceability

Our transparent supply chain offers consumers a unique look into the origins of our products, all the way back to the farm where the seed was planted through a scannable QR code on the product.

GOTS (Global Organic Textile Standard)

is the platinum standard for an organic textile as the USDA Organic Seal (in food) equivalent for Textiles.

GOTS is a finished product certification that has a strict set of environmental and social criteria at every stage of the production process
